Whether your school has the bandwidth and desire to keep in touch with families regarding tuition, invoices and payments, or you'd like to leverage a full-service team to take the work off your plates, you need a tuition technology solution that will help streamline your collection processes to be more efficient and effective for both your school and your families.

## Here are 7 key capabilities you should look for in a solution:

- ✓ **On-demand contract agreement revisions**  
Look for a solution that allows you to make changes to existing agreements/contracts within the system and automatically notify families of those changes on your behalf.
- ✓ **Flexible billing options**  
Your system should allow you to accommodate all types of payment plans while allowing certain payment types per family.
- ✓ **Fee collection and management**  
Make sure your system gives you the flexibility to manage an unlimited number and type of fees and credits in one place.
- ✓ **Branded tuition collector** to eliminate any confusion that your school is leveraging a third party solution.
- ✓ **Delinquent payment follow-up**  
Choose a solution that will take care of reminder emails and conduct friendly phone call reminders to families when their payments fall behind.
- ✓ **Flexible payment services**  
Look for a solution that supports paper or email statements, as well as multiple payment options, including Automated Clearing House (ACH), credit card, paper or online check, cash, and bill pay.
- ✓ **Detailed reporting**  
Make sure you get the insights you need with customized graphical reporting that is easy to read and interpret. Also, look for a solution with a comprehensive subsidiary ledger with detailed total receivables and

### TIP

Don't forget about non-tuition solutions too. How are you enabling your school for virtual fundraisers, events and donations this year?

## TuitionPay

Paying and processing tuition should be as painless as possible—for families and your business office. By providing your families with the flexibility and choice to access and pay tuition online, you're delivering a convenience while also saving your office time and money. Schools depend on timely tuition payments to maintain positive cash flow, so it's vital to the entire community to make this a seamless and efficient process. Receive faster tuition payments and simplify management while maintaining a direct relationship with your families.

## CampusPay

Create customized, branded forms that integrate seamlessly into your school website for non tuition-related payments and activities in minutes!
