

Unlock Efficiency and Seamless Payment Experiences for Schools

Diamond Mind® offers tailored payment solutions designed to streamline and simplify the way private and independent K-12 schools handle transactions.

Timely and secure transactions are crucial for the financial stability of schools, and Diamond Mind offers an efficient platform to help manage them. With comprehensive tools designed to simplify, optimize, and expedite transactions, schools can easily accept digital payments for tuition, fundraising, summer programs, and events through their website or mobile app. Diamond Mind ensures on-time payments, reduces administrative costs, and provides families with a smooth experience.

The Advantages of a Unified Digital Payment Solution

ENHANCED PAYMENT EXPERIENCE FOR FAMILIES

Provide a seamless payment experience with user-friendly interfaces, mobile and web options, automatic receipts, and easy tracking, making it easier for families to make on-time payments.

STREAMLINED PAYMENT MANAGEMENT

Schools can easily access and review all payments within a unified system. Organize them by date, status, payer name, or amount, and quickly retrieve detailed information and history.

SEAMLESS INTEGRATION WITH SCHOOL MANAGEMENT SYSTEMS

Diamond Mind integrates seamlessly with school management systems like the Ravenna®, TADS®, and SSS®, streamlining payment management and reducing data entry errors.

FLEXIBLE, TRANSPARENT PRICING

Diamond Mind offers flat rates with no hidden fees. Schools only pay transaction processing fees, which can be shared or passed to families, ensuring transparency and cost control.

REAL-TIME REPORTING AND ANALYTICS

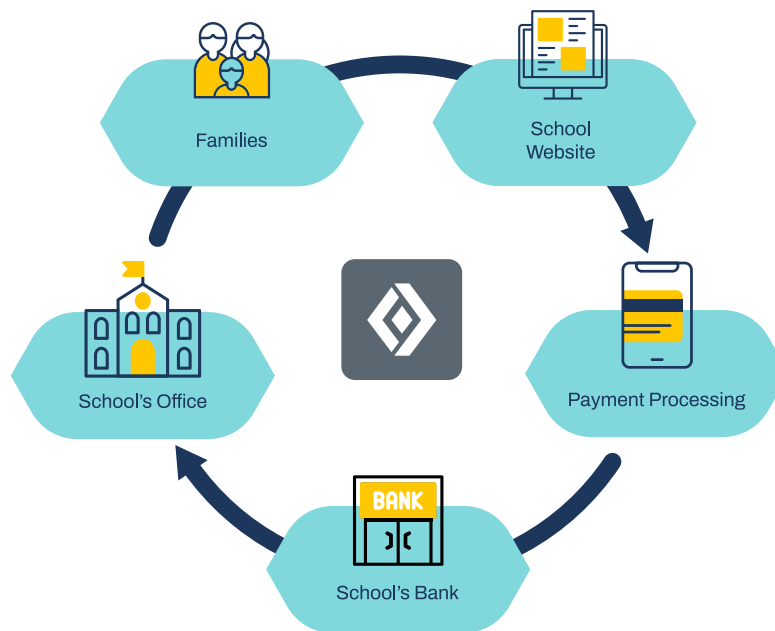

Schools gain access to real-time reporting tools, enabling them to track payment trends, manage cash flow, and make informed financial decisions with ease.

SECURE AND PCI-COMPLIANT TRANSACTIONS

Diamond Mind ensures that all transactions are fully PCI-compliant, providing safe payment processing and protection of sensitive financial information—for both schools and families.

Diamond Mind Offerings: Everything You Need to Manage Payments

- **TuitionPay®** enables online tuition payments, allowing schools to manage recurring plans and update payment details independently. It also provides streamlined payment management with a full view of all payment activity in one system.
- **CampusPay®** generates branded payment forms for your school website in minutes. Easily integrate these forms into your site to accept online payments, reconcile accounts, generate reports, and export payment details to your accounting system.
- **Purchase Card Program™** allows school staff to make authorized purchases with no annual fees or interest charges. With every purchase, you qualify for automatic cash rebates.
- **MySchoolWallet®** allows families to make payments quickly and easily from their phones. The system also enables users to track payments and automatically sends receipts after a payment is completed.

Our organization reached out to the team at Diamond Mind during a summer of intense transitions for us; their thoughtful work helped lighten the load. At every step of our interactions with them—from phone conferences to emailing—they were responsive and helpful.
