

CampusPay Standard Themes

Say goodbye to complex coding and hello to effortless customization! With our new Standard Themes, you can now give your Campus Pay forms a personalized touch in just minutes, without needing to contact CampusPay support.

To create a new self-service theme, from within CampusPay, navigate to Themes in the left side menu, then click Create Standard Theme.

On the Create Theme page, you'll be able to customize your school's logo, add your website URL, as well as form background and button colors to match your school's branding.

CampusPay Standard Themes

What's new:

- Upload your school logo for a professional, branded look
- Add your website URL to allow parents to navigate to your website easily
- Pick background and button colors that match your school identity
- Apply changes instantly — no coding, no CSS, just a few clicks

Standard themes make it easier than ever to create forms with your school's brand, creating a seamless experience for both admins and payers.
